Instructor's Profile

Dr. Rashmi Prasad

Dr. Rashmi Prasad is Associate Professor in the College of Business and Public Policy at the University of Alaska Anchorage. His research interests include Health Care Policy, Organizational Theory and Business Ethics.

He has published articles in numerous refereed journals, as well as contributing chapters to several books. Additionally, Dr. Prasad has been an active public speaker, addressing a number of local, national and international audiences, as well as providing expert input on health issues at the state level. He is currently working on a number of research projects related to improving the delivery of health services in the United States and India.

Class Description

In this course students will examine the foundations and dilemmas of health care related public policy in the United States in a comparative perspective.

The class will also critically analyze managerial and organizational practices in the health services sector in order to appreciate the special challenges of health services delivery.

Additionally, students will gain an understanding of the international dynamics that affect health services and related industries.
