Elective* 3 _____

15 _____

* Electives must be at the 100-level or higher. To maximize the transferability of coursework toward the Associate degree in Logistics, it is recommended that students use these elective credits to prepare for the Written Communications and Math courses required for this degree. If registering for the first time in English or Mathematics, students must show evidence of appropriate placement. Contact your academic advisor or refer to the UAA catalog

This planning sheet provides a suggested sequence for taking courses within the degree and is not intended to take the place of the degree requirements listed in the UAA course catalog.
